**Roscommon Livestock Mart**

**Shearling rams, Ram lambs, Shearling ewes, Ewe Lambs**

**Judge: Mr. Eamonn Meade**

**Kindly sponsored by Univet**

## **Irish Vendéen Sheep Society – Premier Show and Sale**

On Wednesday, 20<sup>th</sup> July 2011 in Roscommon Livestock Mart, the Irish Vendéen Sheep Society welcome you to their 15<sup>th</sup> Annual Premier Show and Sale.

Once again this year many of the animals on offer have been recorded by Sheep Ireland using the lamb plus recording scheme. The sheep recorded in 2011 are ranked on a star basis for Production (ie terminal sire traits – growth rate, muscle depth and depth contribute to this), maternal traits and lambing ease. These indicies published in the catalogue are the evaluation run on 7<sup>th</sup> July, 2011 by Sheep Ireland. For each trait 1 \* indicates that the animal is in the lowest 20%, while 5 stars is the top 20%. Each trait has an associated % accuracy that reflects the chances of the star value being true for that animal. The Vendéen breed is mainly a terminal sire breed, so most emphasis should be put on the “production” trait. Animals in this catalogue that have been recorded have their star rating included. Lambs born in 2011 with a 5 star production rating are in a Lambplus show class (class 2a for ram lambs and 2b for ewe lambs). They are competing for the newly presented “Lamb Performance Cup”, that was kindly donated to the society by Pat Oliver.

Vendéen Sheep originated from the West Coast of France where they experience hot/dry summers and cold/wet winters, which leave them adaptable to all types of farming systems – be it intensive or extensive. Since their introduction to Ireland they have steadily gained in popularity due to their many unique qualities. The sheep themselves are very distinguishable with their bulky looks, tight skins, and good wool cover including the crown of their heads which leaves lambs very warm and hardy even in harsh winter conditions.

Vendéen crosses have remarkably low mortality rates at birth; they have great up and go and are easy to flesh. They are suitable for both intensive indoor and extensive outdoor lambing. The Vendéen cross has a medium bone and compact heavy muscle carcass that results in a high kill out percentage due to minimal waste. They tend to grade as E, U or R with fat class 3 when appropriately finished. They make excellent lambs for the export market with a high lean to fat ratio. Pure Vendéen rams have earned the reputation as hard workers and are proven to be exceptionally fertile. They are non-seasonal breeders and so are excellent workers all year round and make ideal terminal Sire’s for early lamb production as well as for mid-season lambing. Why not try a Vendéen Ram in your flock and see the benefits for yourself. Once you’ve tried a Vendéen you will be back for more!! Good luck with your use of Vendéens in 2011/2012.

***Irish Vendéen Sheep Society***

# Sheep Ireland Euro-Stars

## Background

The Sheep Euro-Star breeding index for sheep that were bred in flocks that participated in the LambPlus Sheep Breeding Scheme has been developed by Sheep Ireland and reflects how much Profit (€) a sheep farmer can expect to realize from making a breeding decision. They are designed to help farmers increase returns from sheepbreeding and are based on available data on all animals in the Sheep Ireland Breeding Database.

## €uro-Stars – What do they mean?

<b>Overall Sheep Value</b>	Measure of the Overall Sheep Value of an animal - combines Sub-Indices together.
<b>Production Index</b>	Measure of genetic merit of a Sheep for Terminal traits.
<b>Maternal Index</b>	Measure of genetic merit of a Sheep for Maternal traits.
<b>Lambing Index</b>	Measure of genetic merit of a Sheep for Lambing traits.

## €uro-Stars - Where does the information come from?

Index	Information Source
<b>Production</b>	<ol style="list-style-type: none"><li>1. Individual On-Farm Weights (Birth, 40 days old and Weaning).</li><li>2. Days to Slaughter.</li><li>3. Ultrasound Muscle &amp; Fat Scanning.</li></ol>
<b>Maternal</b>	<ol style="list-style-type: none"><li>1. Lambing Ease.</li><li>2. Weaning Weight.</li><li>3. Ultrasound Muscle &amp; Fat Scanning.</li><li>4. Lambing Survival.</li></ol>
<b>Lambing</b>	<ol style="list-style-type: none"><li>1. Lambing Ease.</li><li>2. Lambing Survival.</li></ol>
<b>Other Key Traits</b>	<b>Lamb Survival:</b> Is calculated directly from data recorded on farms. <b>Days to Slaughter:</b> Predicated from 40 day weights, weaning weights and scanning weights.
<b>Accuracy %</b>	This is an indication of how much confidence can be placed in the evaluations.
<b>N/A</b>	€uro-Star Indexes are sometimes not available due to the accuracy % for that index being too low.
<b>% Rank</b>	Shows how far into the Star Rating the sheep is placed. 5 Stars = Top 20% of the Breed. 4 Stars = Between Top 40% and Top 20% of the Breed. 3 Stars = Breed Average. 2 Stars = Between Bottom 40% & Bottom 20% of the Breed. 1 Star = Bottom 20% of the Breed.

### LambPlus<sup>(R)</sup>

LambPlus<sup>(R)</sup> is the Sheep Ireland Breeding Information Service for both Pedigree and Commerical sheep farmers. LambPlus<sup>(R)</sup> will record relevant on farm data submitted by the farmers and flock owners will then get genetic evaluations and flock reports that will allow them to compare their flock's performance with other LambPlus users.

**To find out more about 'LambPlus', call Sheep Ireland today on 1850-600-900 or ([www.sheep.ie](http://www.sheep.ie)).**

# Irish Vendéen Sheep Society special sale rules

1. All Pedigree Sheep to be sold in Euro.
2. A commission will be charged to the buyer of 5% of the purchase price + VAT at 4.3% on the commission only.
3. The Auctioneers will pass from any pedigree animal not receiving bids to the value of €300 for males and €200 for females. Bids will be sought in increments at the Auctioneers discretion.
4. Any animals in the Sale Premises which are sold by private treaty after the Auction are subject to the full commission on the price realised and all such transactions must be passed through the Auctioneers.
5. All Sheep offered for sale at one year old or older are to be bare clipped after the 1<sup>st</sup> April preceding the sale. No sheep are to be dressed apart from tidying heads and legs. Tails may be squared off.
6. All sheep to be sold in the appropriate class and in the owner's flock group. All sheep born on or after 1<sup>st</sup> December 2010 are classified as lambs. Those born between 1<sup>st</sup> December 2009 and 30<sup>th</sup> November 2010 are classified as shearlings.
7. The order of sale in each group is by ballot (arranged by the Sales Committee). Each lot will be sold before the next group is commenced. If unsold, lots 1 to 5 in the sale may be re-run after lot 37. No other re-runs are permitted. The Champion and Reserve Champion will be sold after lot 12.
8. All sheep to be sold singly and will be identified by lot number.
9. All sheep were inspected for correctness at entry to the sale. The decision of the inspectors is final.
10. The sales committee has made every effort to ensure that the information presented is accurate and correct as supplied by the Vendor. The Irish Vendéen Sheep Society and its sales committee accept no liability for any errors therein or any consequences of such errors.

**The following minimum weight limits apply:** Shearling rams 90 kg; Ram lambs 65 kg; Shearling ewes 65 kg; Ewe lambs 50 Kg

**Rams (shearlings and ram lambs) - Lots 1-50**

**Ewes (shearlings and ewe lambs) – Lots 51-63**

**Lambs that are 5\* production in lambplus are listed as:**

**“Class 2a, Ram lamb - 5\*”**

**“Class 4a, Ewe lamb – 5\*”**
